## First Course:

Mussels in White Wine

Mussels contain the same chemical compounds as oysters which release your 'romantic' hormones such as testosterone and estrogen.

## Second Course:

Caprese Salad Atop Arugula

This salad contains tomatoes, fresh mozzarella, basil and balsamic, and sits on top of arugula greens. Basil, said to stimulate 'drive' and boost fertility, and arugula, which has been documented as an aphrodisiac since the first century A.D., all in one dish.

## Main Course:

Twin Grilled Ribeye Steaks, Twin Lobster Tails, and Shrimp Scampi Tossed with Asparagus & Pasta

Knock your date's socks off with this tantalizing meal. What could be sexier than feeding her/him from your fork, juicy bits of steak and lobster, or hormone releasing shrimp, or phallic-shaped, stimulating asparagus?

## Dessert Course:

Choice of 2 servings of Red Velvet Cupcakes (2) or Vanilla Bean Cheesecake (2 slices)...each topped with a 'shareable' strawberry!

The above is served with rolls & butter.

An aphrodisiac-  
packed evening  
without  
reservations!
